SUBJECT INDEX

Carcasses and meats

Body protein partition in pigs	37
Early castration of piglets: effects on carcass traits	269
Fasting and transportation effects in beef cattle	25

Cattle

Bull performance testing for efficiency and beef traits (working group report)	287
Crossbreeding effects in dairy cattle	175
Fasting and transportation effects in beef cattle	15,25
Feed intake and feed efficiency in dairy cattle: genetics (review)	1
Feeding effects at turnout to pasture on milk yield	119
Genetic parameters for milk production	193
Intervals between calving data and health disorders	203
Production diseases: recording and genetic improvement (review)	89
Selection on fat and protein: profit of dairy herds	299
Sire of foetus effects on milk yield of dam	107
Subclinical mastitis: milk temperature fluctuations	223

Experimentation

Shunt technique to determine ileal digestibility in piglets	233
---	-----

Genetics and selection

BLUP animal model to predict breeding value in horses	151
Bull performance testing for efficiency and beef traits (working group report)	287
Crossbreeding effects in dairy cattle	175
Feed intake and feed efficiency in dairy cattle (review)	1
Genetic parameters for milk production of dairy cows	193
Health disorders of predisposed cows: risks during lactation	203
Methods to predict breeding value in pig selection	137
Minimization of inbreeding in small-scale selection programmes	317
Multigenic control of immunity in mice (review)	277
Ovulation ability of rabbit strains	257
Production diseases in cattle: recording and genetic improvement (review)	89
Selection on fat and protein: profit of dairy herds	299
Selection limit for litter size in mice	163
Sire of foetus effects on milk yield of dam	107
Sire \times herd interaction in on-farm testing of pigs	325

Horses

Breeding value estimation: BLUP animal model	151

International co-operation

Bull performance testing: E.A.A.P. working group report	287
EAAP NEWS	69,337

Management and health

Early castration of piglets	269
Farrowing crate with inward-sloping sides	249
Fasting and transportation effects in beef cattle	15,25
Influences on HCG-induced ovulation in rabbits	257
Intervals between calving date and health disorders in dairy cows	203
Multigenic control of immunity in mice	277
Production diseases in cattle: recording and genetic improvement (review)	89
Subclinical mastitis: milk temperature fluctuations	223

Nutrition

Energy requirements and feeding of lactating mares (review)	53
Feed intake and feed efficiency in dairy cattle; genetics (review)	1
Feeding effects at turnout to pasture on cows' milk yield	119
Ileal digestibility determination in piglets by shunt technique	233

Other species

HCG-induced ovulation in two rabbit breeds	257
Multigenic control of immunity in mice	277
Selection limit for litter size in mice	163
